

F5 Technical Boot Camp - Partner Edition 2018

Dear Participant,

You are invited to attend the F5 Technical Boot Camp instructor-led training course beginning the 5th of September till the 7th in Vilvoorde.

It will be run by our Security Consultant and Certified F5 Networks Trainer , Pascal Tolenaar

This three-day course will get you familiar with BIG-IP Local Traffic Manager, DNS (Global Traffic Manager),and security modules, including Advanced Firewall Manager, Application Security Manager, and Access Policy Manager through a combination of instructor presentations and hands-on virtual labs. 50 % of the course will be lab-sessions. It will also cover F5 Synthesis messaging and solution white boarding

practice.

- o Bring your laptop

Feel free to contact me with any questions.

Sincerely,

Stefan De Schoenmaeker

Business Development Manager F5 Networks

Course Objectives

PURPOSE

Summary

This course is designed to provide F5 UNITY sales partners with the necessary skills and knowledge to discuss and demonstrate the value of F5 solutions to customers.

Background

This course is based on the F5 Technical Boot Camp provided to newly hired F5 Sales Engineers. The

original course spans seven days of instruction, covers several F5 BIG-IP modules, and provides students with presentation skills training. The partner edition provides reduced coverage of modules and omits presentation skills training, while including greater emphasis on Synthesis messaging and white-boarding practice. Furthermore, the partner edition is designed for modular customization to accommodate a variety of training needs among global theatres.

Program Objectives

Build the F5 technical competency of UNITY partner pre-sales system engineers.

Provide UNITY partner pre-sales engineers with hands on experience relevant to their job tasks and F5 certification exam preparation.

Provide UNITY partner pre-sales engineers with an opportunity to discuss F5 solution value proposition as it relates to their customers and business.

Course Objectives
